PROJECT: "Testing of Black Hole™ Lot 0804314"
RTP Labs ID: 08-161

Presented below are the laboratory results of the analysis for the sample received on July 9, 2008. We received one sealed container labeled "Black Hole™" lot 0804314 containing 90 capsules. The capsules were mixed to obtain a representative sample. The mixture was then extracted and analyzed by GC/MS for delta-9-Tetrahydrocannabinol using an independent analytical reference standard of known concentration. No detectable amount of delta-9-THC was found.

Certificate of Analysis

<i>Product Name</i>	<i>Lot</i>	<i>Expiration</i>	<i>Substance Tested</i>	<i>Results per capsule</i>
Black Hole™	0804314	04/11	delta-9-THC	Not Found

The results are based on the average capsule weight of 0.7074 mg and the reporting limit of 0.5mg/capsule.

Please call me if you have any questions,

Sincerely,

Alston Sykes, Principal Chemist
