Controlled Labs  
1333A North Ave, #423  
New Rochelle, NY 10804

**PROJECT: "Heavy Metals Analysis"**  
**RTP Labs ID: 10-203**

Presented below are the laboratory results of the sample received on July 20, 2010. We received one sealed bottle labeled as listed below. Fifty Softgels were weighed, combined, extracted and analyzed for the listed Heavy Metals. The average weight of the Softgels were 1.3726 grams/Softgel.

### Certificate of Analysis

<i>Product Name</i>	<i>Lot/Exp</i>	<i>Element</i>	<i>µg/g</i>	<i>µg/Softgel</i>	<i>µg/serving</i>
Orange	20090915/	Arsenic	<0.073	<0.100	<0.200
OxiMega™	06/13	Barium	<0.073	<0.100	<0.200
Fish Oil		Cadmium	<0.073	<0.100	<0.200
120 Softgels		Chromium	3.04	4.17	8.34
2 per serving		Lead	<0.073	<0.100	<0.200
		Selenium	<0.073	<0.100	<0.200
		Silver	<0.073	<0.100	<0.200
		Mercury	0.022	0.030	0.060

The testing was conducted according to the FDA cGMP for Dietary Supplements Final Rule, June 25, 2007.

Sincerely,

Alston Sykes
